SPRING A  
Lesson 8

## Sharing Wonder

*“I will praise you, O Lord, with all my heart; I will tell of all your wonders.”*

Psalm 9:1

Birds fascinate toddlers! To share the wonder of birds from your window, put birdseed or breadcrumbs on a railing or windowsill. Show your toddler how to sit very still to watch them. At snack time, cut raisins, cereal or bread into little pieces so your toddler can pretend to be a bird, too! Say, **God made the birds. He gives them food so they can grow.**

### Try This:

Balloons are like magic to toddlers—and another wonder to share! Here are some balloon activities to enjoy indoors (outdoors, grass tends to pop balloons!): tap a balloon to keep it in the air; bat a balloon with an empty paper towel roll; kick a balloon back and forth; sit on a balloon until it pops. Tie a weight to the string of a helium-filled balloon so it floats, but not to the ceiling—lots of entertainment for everyone!
